In one of Venice's most authentic artisan workshops, clay takes shape through the same gestures handed down for generations. This experience gives you the chance to sit at the potter's wheel and discover a craft made of patience, technique and creativity, enjoying an intimate experience in one of the city's most authentic and lived-in neighbourhoods.

Guided by the workshop's artisans, you will work at the wheel and learn the fundamental techniques, from centring the clay to creating the shape. The workshop is designed for those approaching this discipline for the first time, in an intimate setting where every participant is followed step by step. For those who wish to go deeper, you can complete the experience by decorating your own creation.

An experience for anyone who wants to slow down, put themselves to the test and experience Venice through one of its most fascinating traditional crafts.
