Even the smallest objects can tell a story. In this experience you'll discover the world of ceramics by making a fully personalized keychain, a creative project designed to introduce you to working with clay in a simple, relaxing and fun way.

Starting from a block of clay, you'll freely shape your keychain, experimenting with engravings, textures, colors and decorations to make it truly one of a kind. Guided step by step, you'll discover how a few details can turn a small everyday object into an accessory that says something about you.

Once the decoration is complete, your keychain will be finished with a transparent glaze and fired twice, becoming a durable object to use every day or to give to someone special.

What makes this experience special

- Make one or more personalized ceramic keychains
- Freedom to experiment with shapes, textures, engravings and colors
- Hands-on introduction to the main decorative techniques of ceramics
- Transparent glaze and double firing included
- A workshop that's perfect even if it's your first time working with ceramics
