Since 1977, the Apicella family has looked after and nurtured the vineyards of Tramonti, in the most authentic heart of the Amalfi Coast. Among terraces overlooking the Monti Lattari and native grape varieties, this winery tells a story of family, land and heroic viticulture that has carried on for generations.

The experience begins with a guided tour of the vineyards and the winery, where you will discover the cultivation and winemaking techniques that have made Cantine Apicella one of the historic names of the Amalfi Coast. Strolling among the vines and the production areas, you will come to know the deep bond between the landscape of Tramonti and the wines that come to life here.

At the end of the tour you can choose from three different tasting paths, all accompanied by local products selected according to the season, for an experience that brings together wine, local gastronomy and Campanian hospitality.

What makes this experience special:

- Guided tour of the vineyards and the historic winery of the Apicella family
- Discovery of the native grape varieties of the Amalfi Coast
- Guided tasting of DOC Costa d'Amalfi wines
- Pairings with typical products and local ingredients
- Three tasting paths to choose from
