Working clay with your hands means slowing down, focusing on each movement and making room for creativity. In this workshop you'll step into the welcoming atmosphere of a creative atelier to discover the basics of hand-building and make a one-of-a-kind piece from a simple block of clay.

Guided step by step, you'll learn some essential handcrafting techniques and can create cups, bowls, jewelry dishes or small decorative objects. At the end of the workshop, your piece will be finished, glazed with a clear glaze and fired in the kiln. On request, you can also add painted decoration to personalize it even further.

An experience designed for anyone who wants to treat themselves to a creative break and rediscover the joy of shaping something with their own hands.

What makes this experience special:

- Hand-building workshop suitable for beginners too
- Creation of a personalized ceramic piece
- Basic techniques explained step by step
- Materials, clear glazing and firing included
- Option to add decoration to your piece
